Submission: Objection

Comments: I am deeply concerned to learn about the Hill Helicopter planning application that has been submitted for a Helicopter factory within Cresswell.

I live in a semi-rural area myself and I have family that will be impacted by this questionable development. This type of development should not be considered for an area with so many housing neighbourhoods nearby.

The air, noise and light pollution that this will cause is harming to both locals and wildlife.

The design of the building is an eyesore for an attractive Hamlet like Cresswell. The size, scale and colour are not appropriate in this location.

I would emphasise again, Cresswell is a Hamlet. A Hamlet is a small settlement, generally one smaller than a village, and strictly (in Britain) one without a church. I cannot see how anyone would think building an airport with a vast number of flights operating per day (close to East Midlands) is a good idea.

The application is a poor submission that has not addressed the appropriate consultees and shows land in the application that does not have permission. A new EIA has not been carried out either.

The planning application should never have been a reserved matters application and the council should dismiss this application and launch a full investigation the deep failings of development services.

If this was passed the health and wellbeing of both Cresswell and neighbouring communities would be negatively affected.
