Application no: SMD/2022/0301

Determined on: 30/08/2022

**Town and Country Planning Act 1990
Town and Country Planning (Development Management Procedure) (England) Order 2015
(as Amended)**

FULL PERMISSION FOR DEVELOPMENT

This permission does not carry any approval or consent which may be required under any enactment, bylaw, order or regulation (e.g. in relation to Building Regulations or the Diversion of Footpaths etc) other than Section 57 of the Town and Country Planning Act, 1990.

Location of Development:

School Lane Bradnop Staffordshire

Description of Development:

Erection of new agricultural store

In pursuance of their power under the above mentioned Act, Staffordshire Moorlands District Council Planning Authority, **HEREBY GRANTS PLANNING PERMISSION** for the development described above subject to the following condition(s):

1. The development hereby permitted shall be begun before the expiration of three years from the date of this permission.

Reason:-

To comply with the provisions of Section 51 of the Town and Country Planning, Planning and Compulsory Purchase Act, 2004.

2. The development hereby permitted including the finishing materials shall be carried out and completed in accordance with the following approved plans:

00803 AL0(0)4 Revision B

Reason:-

To ensure that the development is carried out in accordance with the approved plans, for clarity and the avoidance of doubt.

3. The building shall comprise a dark-stained or grey colour for the timber walls and doors and a neutral colour for the roofing materials.

Reason:-

In the interests of the character and appearance of the area.

4. The building shall be used solely for the storage of equipment, machinery, implements and fodder in connection with the maintenance and agricultural use of the land edged blue in the location plan (excluding the "barn to be extended and converted") and shall not be used to accommodate livestock and shall not be used for any commercial or business purposes or for domestic storage or vehicle garaging or any other purposes ancillary to the residential use of dwellings outside of the red line site. The development including any hardstandings shall be removed within 6 months of the date on which it ceases to be required for agricultural purposes and the land returned to its former condition.

Reason:-

In the interests of the character and appearance of the area.

5. The development hereby permitted shall not be brought into use until the access drive rear of the public highway has been surfaced in a bound and porous material for a minimum distance of 5m back from the carriageway edge in accordance with details to be first submitted to and approved in writing by the Local planning authority. The surfacing shall thereafter be maintained

Reason:-

In the interests of highway safety and the appearance of the area.

6. The development shall not be brought into use until details of any other hard-surfacing are submitted to and approved in writing by the local planning authority and the hard-surfacing shall be provided in accordance with the approved details.

Reason:-

In the interests of the character and appearance of the area.

Informatives

1. This is considered to be a sustainable form of development and so complies with the provisions of the NPPF.

2. The surfacing works within the highway verge shall require a permit to dig prior to any works taking place. The developer is advised to contact Staffordshire County Council Network Management at nmu@staffordshire.gov.uk in advance of surfacing works

commencing. See Temporary excavations (permit to dig) - Staffordshire County Council for details.

3. The applicant is aware of Public Footpath No. 22 Bradnop and Cawdry Parish, which runs through the proposed development site. The attention of the developer should be drawn to the requirement that any planning permission given does not construe the right to divert, extinguish or obstruct any part of the public path. If the path does need diverting as part of these proposals the developer would need to apply to your council under section 257 of the Town and Country Planning Act 1990 to divert the footpath to allow the development to commence. The applicants should be reminded that the granting of planning permission does not constitute authority for interference with the right of way or its closure or diversion. For further information the applicant should be advised to read section 7 of DEFRA's Rights of Way Circular (1/09). It is important that users of the path are still able to exercise their public rights safely and that the path is reinstated if any damage to the surface occurs as a result of the proposed development. The surface of the footpath must be kept in a state of repair such that the public right to use it can be exercised safely and at all times. Heavy vehicular use can cause the way to become unsuitable for use and in some instances dangerous. Some attention needs to be drawn to this and that surface works may be required.

X 

Signed by: Jane Colley Signature

On behalf of Staffordshire Moorlands District Council

NOTES

1. Approval under the Building Regulations may also be required. Advice in this respect can be obtained by contacting the Councils Building Control Section at BControl@staffsmoorlands.gov.uk
1. Where a vehicle is often driven across a grass verge or kerbed footway to and from premises adjoining a highway, the occupier of the premises may, be required to pay the cost of construction of a crossing, and/or may be required to comply with conditions, imposed by the Authority. You should contact the Highway Authority at Staffordshire County Council.
2. This consent is granted subject to conditions and it is the owner(s) and the person(s) responsible for the implementation of the development who will be fully responsible for their compliance throughout the development and beyond. An application will need to be made to discharge conditions and a fee is payable with the application. For more details please refer to our web site: www.staffsmoorlands.gov.uk If there is a condition that requires work to be carried out or details to be approved prior to the commencement of the development this is called a “condition precedent”. The following should be noted with regards to conditions precedent:
 - (a) If a condition precedent is not complied with, the whole of the development will be unauthorised and you may be liable to enforcement action.
 - (b) Where a condition precedent is breached and the development is unauthorised, the only way to rectify the development is the submission of a new application.
3. Other conditions on this permission must also be complied with. Failure to comply with any condition may render the owner(s) and the person(s) responsible for the implementation of the development liable to enforcement action.
4. The permission is granted in strict accordance with the approved plans. It should be noted however that:
 - (a) Any variation from the approved plans following commencement of the development irrespective of the degree of variation will constitute unauthorised development and may be liable to enforcement action.
 - (b) Variation to the approved plans will require the submission of a new planning application.
5. If you are aggrieved by the decision of your local planning authority to refuse permission for the proposed development or to grant it subject to conditions, then you can appeal to the Secretary of State under section 78 of the Town and Country Planning Act 1990.
6. If the decision to refuse planning permission is for a householder application, and you want to

appeal against your local planning authority's decision then you must do so within 12 weeks of the date of this notice.

7. If this is a decision to refuse planning permission for a minor commercial application, and you want to appeal against your local planning authority's decision then you must do so within 12 weeks of the date of this notice.
8. If this is a decision to refuse express consent for the display of an advertisement, if you want to appeal against your local planning authority's decision then you must do so within 8 weeks of the date of receipt of this notice.
9. If you want to appeal against your local planning authority's decision for any other type of development, including listed building consents then you must do so within 6 months of the date of this notice Appeals must be made using a form which you can get from the Secretary of State at Temple Quay House, 2 The Square, Temple Quay, Bristol BS1 6PN (Tel: 0303 444 5000) or online at <https://acp.planninginspectorate.gov.uk>
10. The Secretary of State can allow a longer period for giving notice of an appeal, but will not normally be prepared to use this power unless there are special circumstances which excuse the delay in giving notice of appeal. The Secretary of State need not consider an appeal if it seems to the Secretary of State that the local planning authority could not have granted planning permission for the proposed development or could not have granted it without the conditions they imposed, having regard to the statutory requirements, to the provisions of any development order and to any directions given under a development order.
11. If either the local planning authority or the Secretary of State refuses permission to develop land or grants it subject to conditions, the owner may claim that he can neither put the land to a reasonably beneficial use in its existing state nor render the land capable of a reasonably beneficial use by the carrying out of any development which has been or would be permitted. In these circumstances, the owner may serve a purchase notice on the Council (District Council, London Borough Council or Common Council of the City of London) in whose area the land is situated. This notice will require the Council to purchase his interest in the land in accordance with the provisions of Part VI of the Town and Country Planning Act 1990.
12. Domestic sprinklers
Fire sprinklers operate automatically even if you are not at home releasing water directly over the source of the fire and sounding the alarm, they are unobtrusive and easy to install. Sprinklers are NOT expensive; normally costing around 1-2% of the cost of construction of a new building. The use of sprinklers will usually allow design freedoms as well, which can reduce construction costs and improve usability and design freedoms of the building. The chance of an accidental discharge is 16,000,000:1
If you would like further advice please contact Staffordshire Fire and Rescue Service (www.staffordshirefire.gov.uk)

13. Working smoke alarms correctly positioned in your home can save your life.

The Fire Service recommends you have smoke alarms on every floor of your home, including in each bedroom, and make sure you test your smoke alarms at least once a month.

Although the application of approved guidance and enforcement of regulations will give buildings the legally required baseline of fire protection, the Fire Service's viewpoint is many of these fall short of what we would consider adequate. This is why we campaign for the inclusion of sprinklers.
