Submission: Objection

Comments: I am strongly against this application. We currently experience worse bad smells from the factory since A.P took over from the Pointon family which seem particularly worse at week ends and bank holidays the horrendous smells also drifts into the house. If the the factory increases in size this is only going to get worse. It was mentioned in the environmental application that this would not be the case?

If the factory were to increase in size this will also increase the amount of heavy vehicle traffic increasing the noise level and also the increase of potential road accidents on the main road A520. The plans also would need the removal of trees previously planted to screen the current factory.

The new part of the factory is proposed to be built on green belt this should only be allowed in special circumstance's
