Submission: Objection

Comments: I strongly object to the proposal by AP Proteins to build a further processing plant alongside their rendering factory at the site in Cheddleton.

Living on Woodlands Ave our lives are already disrupted by the terrible smells from the factory. We are regularly unable to enjoy sitting in our garden and have to retreat inside and close all our windows to escape smells which are so disgusting that they are difficult to describe - they actually turn my stomach they are so bad. I believe that the senior pollution officer has reported that properties, including those on Woodlands Ave, will experience increased odour if this proposal goes ahead and I do not believe that this is acceptable!

Also, as residents living in such close proximity to this proposal, maybe we should have been informed about this planning application and not had to find out about it through social media.
