Hilderstone

I live in Hilderstone, one of the surrounding villages to Cresswell. Given the scale of the proposed site in terms of the volume of manufacture and workforce size, it is likely to have significant impact to the traffic flows through Hilderstone. The village is already blighted by heavy traffic flows travelling between Cresswell/Blythe Bridge and Stafford/Stone during the peak commuting times. The main route through Hilderstone will not be able to cope with additional HGV traffic and especially if carrying volatile fuels there should be provisions made to restrict this type of traffic from Hilderstone.

There needs to be a comprehensive impact assessment reported for all of the local Highway implications.
