To whom it may concern,

Thank you for forwarding this revised application, unfortunately the proposed changes do not serve to mitigate or address the points raised in the original communication.

On the contrary, the amendments will, I feel, reinforce and magnify the concerns already identified and do not appear to be congruent with the overall ambiance and nature of the area.

It is not clear from the plans how usage of the private parking area will be monitored and enforced from a legal perspective, particularly in the absence of the land owner. This raises obvious concerns pertaining to safety implications and possible misuse, further impacting from a negative perspective on community cohesion and wellbeing.

It is also of concern that should this proposal be passed, this could set a precedence for future applications of a similar nature, further compounding the environmental issues and safety concerns already raised.

yours sincerely,

The Owner/Occupier
