Submission: Objection

Comments: Basford View is a single track un-tarmac-ed road with minimal turning points. Already over populated as it is, multiple cars for each house means cars having to park on the road which already causes issues and disruption for getting in and out / manoeuvring. Any spare space on the road is used for second cars / visitor parking - having even one extra visitor currently already causes lots of problems. Another development in this area would add further difficulties for current residents during the building process and once erected. Whilst I appreciate issues with construction aren't normally taken into consideration, because the road is single track we are at risk of become completely blocked in when the build is taking place when we all need to get in and out because of employment/children to school and nursery etc.
