Hello,

I have just been advised about this planning application, which I don't believe should happen for the following reasons.....

1. The veranda was built a couple of months ago (summertime), not January as stated on the application
2. It's at least 4 / 5 times bigger than the previous veranda, so it's not a replacement but an extension
3. It stands approximately 5 foot higher than the border wall to Severn Arches, giving the residents of 34 Tregarn Basnetts Wood Road full view of Woodstone Avenue, which I find intimidating when manoeuvring my car in / out of my drive.
4. I believe the planning application should have been displayed in Woodstone Avenue, as it impacts on these people more than the residents of Basnetts Wood Road, although I've not seen the application in this road either, which I find strange as you've only got until 10th October to share your views

Can you please visit Woodstone Avenue and look at the veranda from this side, as it should help you with your decision

Many thanks

Joe
