Mr & Mrs Bootherstone
The Hollies,
22 Caverswall Road
Blythe Bridge
ST11 9BG

Application no: SMD/2022/0349

Determined on: 10/10/2022

**Town and Country Planning Act 1990
Town and Country Planning (Development Management Procedure) (England) Order 2015
(as Amended)**

FULL PERMISSION FOR DEVELOPMENT

This permission does not carry any approval or consent which may be required under any enactment, bylaw, order or regulation (e.g. in relation to Building Regulations or the Diversion of Footpaths etc) other than Section 57 of the Town and Country Planning Act, 1990.

Location of Development:

The Hollies 22 Caverswall Road Blythe Bridge Staffordshire ST11 9BG

Description of Development:

New erection of a residential annex comprising a garage, office, summer house including kitchenette and shower room, and bedroom.

In pursuance of their power under the above mentioned Act, Staffordshire Moorlands District Council Planning Authority, **HEREBY GRANTS PLANNING PERMISSION** for the development described above subject to the following condition(s):

1. The development hereby permitted shall be begun before the expiration of three years from the date of this permission.

Reason:- To comply with the provisions of Section 51 of the Town and Country Planning, Planning and Compulsory Purchase Act, 2004.

2. The development hereby approved shall be carried out in accordance with the following submitted plans and subject to the following conditions and/or modifications:-

AL01;
AL02;
AL03 Rev A;

Reason:- For the avoidance of doubt, in the interests of proper planning and in accordance with the National Planning Policy Framework.

3. The detached outbuilding hereby approved shall not be occupied at any time other than for purposes ancillary to the residential use of the dwelling known as 22 Caverswall Road Blythe Bridge ST11 9BG and shall not be sold, let or otherwise occupied as a separate dwelling or independently of the main dwelling.

Reason:- The establishment of an additional independent unit of accommodation would be unacceptable for this location.

Informatives

1. The application has been assessed against adopted Development Plan policies including the National Planning Policy Framework and any other material considerations. As the application is acceptable there was no need for any negotiation and accordingly a sustainable form of development is approved.

2. The proposed development lies within an area that may contain potential hazards arising from former coal mining activity. These hazards can include: mine entries (shafts and adits); shallow coal workings; geological features (fissures and break lines); mine gas and previous surface mining sites. Although such hazards are seldom readily visible, they can often be present and problems can occur in the future, particularly as a result of development taking place. It is recommended that information outlining how the former mining activities affect the proposed development, along with any mitigation measures required (for example the need for gas protection measures within the foundations), be submitted alongside any subsequent application for Building Regulations approval (if relevant). Any form of development over or within the influencing distance of a mine entry can be dangerous and raises significant safety and engineering risks and exposes all parties to potential financial liabilities. As a general precautionary principle, the Coal Authority considers that the building over or within the influencing distance of a mine entry should wherever possible be avoided. In exceptional circumstance where this is unavoidable, expert advice must be sought to ensure that a suitable engineering design is developed and agreed with regulatory bodies which takes into account of all the relevant safety and environmental risk factors, including gas and minewater.

3. Your attention is drawn to the Coal Authority Policy in relation to new development and mine entries available at:
www.gov.uk/government/publications/building-on-or-within-the-influencing-distance-of-mine-entries

Any intrusive activities which disturb or enter any coal seams, coal mine workings or coal mine entries (shafts and adits) requires a Coal Authority Permit. Such activities could include site investigation boreholes, digging of foundations, piling activities, other ground works and any

subsequent treatment of coal mine workings and coal mine entries for ground stability purposes. Failure to obtain a Coal Authority Permit for such activities is trespass, with the potential for court action.

Property specific summary information on past, current and future coal mining activity can be obtained from: www.groundstability.com or a similar service provider. If any of the coal mining features are unexpectedly encountered during development, this should be reported immediately to the Coal Authority on 0345 762 6848. Further information is available on the Coal Authority website at: www.gov.uk/government/organisations/the-coal-authority

4. The attention of the applicant(s)/developer(s), is drawn to the existence of Public Footpath No.4(a) Forsbrook Parish which runs along the road to the south of the property and to the requirement that any planning permission given does not construe the right to divert, extinguish or obstruct any part of the public path. The applicant(s)/developer(s) are reminded that the granting of planning permission does not constitute authority for interference with the right of way or its closure or diversion. Further information can be found within section 7 of DEFRA's Rights of Way Circular (1/09).

5. It is important that users of the path are still able to exercise their public rights safely and that the path is reinstated if any damage to the surface occurs as a result of the proposed development. The surface of the footpath must be kept in a state of repair such that the public right to use it can be exercised safely and at all times. Heavy vehicular use can cause the way to become unsuitable for use and in some instances dangerous, surface works may be required.

6. Although the road to the property is private, the fact that the route is a public highway (footpath) takes precedence. The use by private vehicles is subject to, and subordinate to, the public's right. In other words pedestrians have a public right and vehicles need to give way to them not the other way around

7. The County Council has not received any application under Section 53 of the Wildlife and Countryside Act 1981 to add or modify the Definitive Map of Public Rights of Way, which affects the land in question. It should be noted, however, that this does not preclude the possibility of the existence of a right of way at common law, or by virtue of a presumed dedication under Section 31 of the Highways Act 1980. It may, therefore, be necessary to make further local enquiries and seek legal advice in respect of any physically evident route affecting the land, or the apparent exercise of a right of way by members of the public.

8. The access drive off Caverswall Road is a private drive. The applicant(s)/developer(s) should ensure they have appropriate rights of access to construct and occupy this development.

9. Severn Trent Water have confirmed that having reviewed their statutory sewer records, they do not currently demonstrate any public sewers on the property. Severn Trent state that

due to a change in Legislation that came into force October 2011, there could be unmapped assets on the property that will enjoy the same protection as all of their mapped assets.

Further information about the transfer, along with guidance to determine whether they're served by a public sewer can be found on the Severn Trent website: www.stwater.co.uk/my-supply/waste-water/looking-after-your-sewers/sewer-pipe-responsibility/

Severn Trent state that if the applicant(s)/developer(s) believe they're served by an unmapped public sewer then they should contact STW for further guidance on this matter building.over@severntrent.co.uk Tel: 0345 266 7930.

NOTES

1. Approval under the Building Regulations may also be required. Advice in this respect can be obtained by contacting the Councils Building Control Section at BControl@staffsmoorlands.gov.uk
1. Where a vehicle is often driven across a grass verge or kerbed footway to and from premises adjoining a highway, the occupier of the premises may, be required to pay the cost of construction of a crossing, and/or may be required to comply with conditions, imposed by the Authority. You should contact the Highway Authority at Staffordshire County Council.
2. This consent is granted subject to conditions and it is the owner(s) and the person(s) responsible for the implementation of the development who will be fully responsible for their compliance throughout the development and beyond. An application will need to be made to discharge conditions and a fee is payable with the application. For more details please refer to our web site: www.staffsmoorlands.gov.uk If there is a condition that requires work to be carried out or details to be approved prior to the commencement of the development this is called a "condition precedent". The following should be noted with regards to conditions precedent:
 - (a) If a condition precedent is not complied with, the whole of the development will be unauthorised and you may be liable to enforcement action.
 - (b) Where a condition precedent is breached and the development is unauthorised, the only way to rectify the development is the submission of a new application.
3. Other conditions on this permission must also be complied with. Failure to comply with any condition may render the owner(s) and the person(s) responsible for the implementation of the development liable to enforcement action.
4. The permission is granted in strict accordance with the approved plans. It should be noted however that:
 - (a) Any variation from the approved plans following commencement of the development irrespective of the degree of variation will constitute unauthorised development and may be liable to enforcement action.
 - (b) Variation to the approved plans will require the submission of a new planning application.
5. If you are aggrieved by the decision of your local planning authority to refuse permission for the proposed development or to grant it subject to conditions, then you can appeal to the Secretary of State under section 78 of the Town and Country Planning Act 1990.
6. If the decision to refuse planning permission is for a householder application, and you want to appeal against your local planning authority's decision then you must do so within 12 weeks of the date of this notice.

7. If this is a decision to refuse planning permission for a minor commercial application, and you want to appeal against your local planning authority's decision then you must do so within 12 weeks of the date of this notice.
8. If this is a decision to refuse express consent for the display of an advertisement, if you want to appeal against your local planning authority's decision then you must do so within 8 weeks of the date of receipt of this notice.
9. If you want to appeal against your local planning authority's decision for any other type of development, including listed building consents then you must do so within 6 months of the date of this notice Appeals must be made using a form which you can get from the Secretary of State at Temple Quay House, 2 The Square, Temple Quay, Bristol BS1 6PN (Tel: 0303 444 5000) or online at <https://acp.planninginspectorate.gov.uk>
10. The Secretary of State can allow a longer period for giving notice of an appeal, but will not normally be prepared to use this power unless there are special circumstances which excuse the delay in giving notice of appeal. The Secretary of State need not consider an appeal if it seems to the Secretary of State that the local planning authority could not have granted planning permission for the proposed development or could not have granted it without the conditions they imposed, having regard to the statutory requirements, to the provisions of any development order and to any directions given under a development order.
11. If either the local planning authority or the Secretary of State refuses permission to develop land or grants it subject to conditions, the owner may claim that he can neither put the land to a reasonably beneficial use in its existing state nor render the land capable of a reasonably beneficial use by the carrying out of any development which has been or would be permitted. In these circumstances, the owner may serve a purchase notice on the Council (District Council, London Borough Council or Common Council of the City of London) in whose area the land is situated. This notice will require the Council to purchase his interest in the land in accordance with the provisions of Part VI of the Town and Country Planning Act 1990.
12. Domestic sprinklers
Fire sprinklers operate automatically even if you are not at home releasing water directly over the source of the fire and sounding the alarm, they are unobtrusive and easy to install. Sprinklers are NOT expensive; normally costing around 1-2% of the cost of construction of a new building. The use of sprinklers will usually allow design freedoms as well, which can reduce construction costs and improve usability and design freedoms of the building. The chance of an accidental discharge is 16,000,000:1
If you would like further advice please contact Staffordshire Fire and Rescue Service (www.staffordshirefire.gov.uk)
13. Working smoke alarms correctly positioned in your home can save your life.
The Fire Service recommends you have smoke alarms on every floor of your home, including in each bedroom, and make sure you test your smoke alarms at least once a month.

Although the application of approved guidance and enforcement of regulations will give buildings the legally required baseline of fire protection, the Fire Service's viewpoint is many of these fall short of what we would consider adequate. This is why we campaign for the inclusion of sprinklers.
