Comments: The proposed regeneration of the Yew Tree Farm is being done in-keeping with what was already there, does not in any way affect public paths, roads, views from nearby properties. The proposals are a significant and welcome improvement to the previous run-down, dangerous residential site. This is particularly given that the large majority of materials proposed to be used are being recycled where possible or in-keeping wherever possible. On this basis I fully support, the significant improvement to the residence.
