Submission: Objection

Comments: 1. The application site lies within the Green Belt where development is strictly

controlled. The proposed extension would amount to a disproportionate addition to

the original building consequently reducing openness and comprising inappropriate

development within the Green Belt.

2. The proposed side and rear extension would nearly double the footprint of the property and therefore is over development of the site.

3. The property is clearly visible form the road and the proposed extension to the property would make it even more visible.
