Submission: Objection

Comments: We object against the planning permission for the 2 flats on congleton road as this is going to be used for immigration. I live directly behind the flats next to the funeral directors and there has been no issue over the last 5 years living here. I believe the tenants have been there for a while too and there has been no issues.

I believe this planning permission will cause issues in the community and may target ASB and I wouldn't feel safe where I live. I believe this will also affect the housing market as no one will want to buy properties living next to an immigration shelter.

Another issue will be the parking as by the flats as it's double yellows and we struggle now with parking due to the car garages and funeral directors and this would cause more issues for the residents if we have a further 2 flats.

I am fully against this and I believe other neighbours will be as most have lived here a very long time.

I hope you can understand why I do not support this.

Many thanks

Jess
