

Station	Easting (m)	Northing (m)	Level (m)
S1	407994.153	347667.636	330.465
S2	407941.235	347789.612	338.961
S3	407871.507	347722.563	339.680

OS Buildings Surveyed Buildings

A true OSGB36 coordinate has been established near to the site centre via a transformation using the OSTN15GB & OSGM15GB transformation models.

The survey has been correlated to this point and a further one or more OSGB36 (15) points established to create a true O.S. bearing for angle orientation

No scale factor has been applied to the survey therefore the coordinates shown are arbitrary & not true O.S. Coordinates which have a scale factor applied

Please refer to Survey Station Table to enable establishment of the on-site grid and datum.

Comments
This plan should only be used for its original purpose. Greenhatch Group accepts no responsibility for this plan if supplied to any party other than the original client.
All dimensions should be checked on site prior to design and construction.

Drainage information (where applicable) has been visually inspected from the surface and therefore should be treated as approximate only.

Notes:
