Subject: P/C Planning Application land adjoining 1 Dorian Way Endon
Date: 16 December 2022 17:49:57

Good evening,

I would be grateful if the following information could please be considered by the relevant planning officer dealing with the land adjoining 1 Dorian Way, Endon in my ward.

Thank you for your time.

Best wishes,

Joe Porter

Mr Joe Porter
Cabinet Member for Climate Change & Biodiversity
District Councillor for Brown Edge & Endon
Parish Councillor for Brown Edge & Endon

Winner of the UK's 1466th Point of Light Award by the Prime Minister

Dear Sir,

RE SMD/2022/0245, Proposed new Bungalow.

We recommend refusal of this application for the following reasons;

- 1.To realise the project the applicant will have to divert an existing footpath that is currently 6.5 metres
Away from the adjoining Endon Brook. The new position would only be 1.7 metres from the watercourse.
That is predominantly in Zone 2 or Zone 3 areas. In its new position the footpath would flood extensively.
The Brook is wide, fast flowing and would create a danger to people using the footpath. When in flood the
Footpath would be unusable and extremely dangerous to the Public.
2. Endon P.C. are very mindful of flooding in the Village. Station Road and Dorian Way flood extensively
And although the Bungalow is in Flood Zone 1 we, The P.C. consider it wrong to allow further development
On land that may be subject to flooding.

Dennis Boulton, Clerk, Endon with Stanley Parish Council

As you can see from this PC statement above, we are aggrieved at the recording of Dorian Way and adjoining footpath flooding as this has never occurred during the 34 years we have lived here in any of the zones.

The PC are arguing that the distance from the Brook to the footpath if moved would only be 1.7m. We would point out that currently the distance from the lamppost on the footpath to the Brook is 1.7m.

At the meeting we stated we are willing to raise the height of the footpath and install a post and wire fence along the edge of the footpath as a safety measure. We confirm we would be willing to do this. We might add that the current footpath is quite uneven and very narrow and any new footpath would be an improvement.

Kind regards

Ian and Wendy Scarratt
