Submission: Objection

Comments: I strongly object to this planning application. Currently the factory is causing noise pollution covering an area of several miles from the factory itself. Lorries are leaving the factory throughout the night. The ones causing the most noise seem to be the empty ones. As they pass through Wetley Rocks and Cellarhead they cause houses to vibrate and a very loud rumble similar to thunder. This happens at every hour of the night, waking residents from sleep which is detrimental to both physical and mental health. Expanding the factory would cause more nighttime noise pollution from increased vehicles travelling from and to the site. Unless something is included in the plan to stop lorries being allowed to exit the facility during the night , I feel it would be unbearable for residents of the area if the facility is allowed to expand.
