We are responding to the application of the decking platform at 6 Stoneygate uttoxeter road Lower Tean.

Due to its elevation when the platform is in use (this was often during the summer) we felt that we were on show when entertaining took place . People on the platform are able to look directly into our kitchen , we were reluctant in opening our bifold doors and using our paved area due to this.

Our garden is very private , but this platform has taken the privacy away when it is in use as it is far to high and intrusive .

Regards

Tina Pearce
