This morning we received a letter from you regarding a Managers Static Caravan. We were not aware that an application had even been made for “proposed lodges”!!!!!! As this development affects our property being in very close proximity we find it offensive that we were not contacted about the the previous application. Only this past weekend there was loud music coming from the Green Man holiday let. So yes we object to any further development on the site . J & HE Heathcote Standing Stone Farm. Bottomhouse.
