Submission: Objection

Comments: I object to the planning permission for the handling and storage plant of animal by products.

We run a successful holiday cottage business for tourists to visit the Peak District, our cottage and our house would be down wind of this site. We can smell burning fumes from Lafarge cement factory in Waterhouses from 3 miles away so we would be sure to have the stench of dead animal products in the back garden of our house and business. This would just take just one bad review on social

Media to ruin our livelihood. This would lower the value of our property and business and our quality of life would be ruined. This is not acceptable to anyone who moves or visits the countryside for fresh air for health reasons, let alone enjoyment. There is already 2 animal processing plants within a few miles. Another is not needed. So I object to this planning on these grounds.
