Submission: Objection

Comments: Our property is adjacent to and directly below the planned development and yet we received no notice of the application and were informed by a neighbour. We have serious concerns regarding the positioning of a business 'handling animal by-products' on this site as any contaminated groundwater from the site would drain through our fields which, following heavy rain, rises to the surface in many different places as well as running down a stream. We are concerned about the containment of disease in the run-off if the facility is, knowingly or unknowingly, handling diseased material.

Our fields are used for livestock grazing and we fear that there would be a risk to their health and to the health of our grandchildren when playing in the stream that is fed by water from the site of the proposed development
