Details of the pre-application advice received

The response from Staffordshire Moorlands District Council & High Peak Borough Council following our pre-advice meeting was favorable to our proposed plans. Discussed were themes that included the internal layout and proposed floorplans for the conversion, the intended use of the property, external heritage of the building and plans for amenities and parking.

The internal layout focused on the size of the proposed rooms where we could clearly demonstrate that the size of all the rooms and the overall living space was in excess of any stated requirements. The intended use of the property was discussed in detail, giving the opportunity to clarify our intended purpose as a holiday home, therefore alleviating initial concerns about the lack of parking provision. However, several viable solutions are being explored, which are detailed in chapter III.

The external characteristics of the building were highlighted as important to the approval of the proposal concluding that any conversion scheme and the arrangement of living accommodation would be expected to work well and respectfully within the fabric of the building with a limited amount of external alteration. This conversation included a proposed dormer in the roof of the main building which has been subsequently dropped, and a discussion on the proposed terrace area above the adjacent building. The conclusion of the conversation regarding the terrace was that additional space outside was favourable, and that a balustrade constructed from the original stone was in keeping and welcomed as a positive solution.

In addition to these points, amenities and parking was discussed. The plans regarding all key amenities were accepted, with parking solutions discussed as viable options. However, it was stated that parking would have been a concern if the house was to be lived in a permanent dwelling, as a holiday home less applicable. It was further highlighted that the parking requirements for a residential property are less than the current requirements for the Chapel.

By way of this application, we have addressed the minor concerns raised during our meeting and have related the development to the Design Considerations of the Policy DC1 of the Local Plan as well as the Council's Vision for the Rural Areas and Policy E 4 Tourism and Cultural Development.

The overall feedback from the pre advice meeting was favourable to all aspects of the project. The aim of our proposal and the vision of the council were in alignment, converting a redundant site into high quality accommodation, protecting the heritage of the building and diversifying the local rural economy.

Authority Employee/Member

With respect to the Authority, is the applicant and/or agent one of the following:

- (a) a member of staff
- (b) an elected member
- (c) related to a member of staff
- (d) related to an elected member

It is an important principle of decision-making that the process is open and transparent.

For the purposes of this question, "related to" means related, by birth or otherwise, closely enough that a fair-minded and informed observer, having considered the facts, would conclude that there was bias on the part of the decision-maker in the Local Planning Authority.
