Submission: Objection

Comments: Having lived in the locality of this property for 17 years and previously when I was younger I do not understand how a third fallenstock/abattoir is required in the area. The development will have an adverse effect on the local landscape and has the potential to cause environmental issues that could easily be avoided by leaving the property as an agricultural holding. The increase in traffic will be noted and the junction just down the road is dangerous at the best of times. Also during winter the site will have significant issues due to the adverse weather conditions that can effect blakelow road.

I therefore object to the development
