Description

Please describe details of the proposed development or works including any change of use

I would like to convert our garage in to a grooming salon. The premises is already fully insulated and sound proof to avoid disturbance to the neighbours. We would be changing the use of the garage from being used as storage to being able to facilitate a dog grooming business. There is already a water supply to the garage and lighting. A dog grooming bath and a sink would be installed along with a dog grooming table. Behind the electric doors, inside the garage, there is already a pvc door and wall which will be the entrance of the grooming salon. There is also a door at the back of the garage which can be used if required. (Please see diagram for more details). The drive way can fit 2 cars, the clients will be able to use this when dropping off and collecting their dogs. There will only be one dog being groomed at a time with a 15 minute time slot in between grooms to prevent overlap of clients and too many vehicles at one time.
