Submission: Objection

Comments: I strongly object to this planning application as it will severely reduce the natural light in my property, especially the bathroom and toilet. It is far too close to my detached home and will limit my ability to maintain and clean my guttering, fascia, soffits etc. Also not sure what the outdoor steps will be like, I will need access at all times with the use of a full size ladder to get up to maintain the side of my property. The overall pitched roof is too high and will restrict light and easy access to my property. I strongly object and wish to have my points considered. Also the plumbing and sewage system to my property is under the path at number 18, and cannot be breached under any circumstances, I have major concerns about this application.
