RE: SMD/2022/0341

We object to the above planning application made by Cheadle Cricket Club for the following reasons:

1. The location of the proposal - this would be in close proximity to residential properties where the gardens back onto the cricket field. We feel it would make more sense to erect the practice facility at the far end/Tean Road side of the cricket ground where there are very few or no houses.

2. There is concern that youths will hang around the facility and use bad language and offensive behaviour and this will be difficult for the cricket club to manage. Last summer, one of our fence panels was broken by a cricket ball. The attitude of the youths who were guilty was disgusting, there was a total lack of respect. The cricket club manager did fix the fence at the time, but obviously, he could not control the behaviour of the young people who caused the damage. We do not want to feel that we are unable to sit out in our garden throughout the summer months due to hearing bad language.

We do appreciate that the cricket club wishes to develop its facilities but feel the disruption to local residents should be kept to a minimum.
