PLANNING PROPOSAL
The existing property is to be extended and altered as shown here to form a 5 bedroom dwelling.
The existing later single storey additions to the property are to be carefully removed shown dotted.
A mix of single and double storey extensions are proposed to create the accommodation required and the roof is to be replaced with a steeper pitched structure to allow rooms in the roof to be formed.
Once the existing property has been transformed it is to be rendered to provide a more modern appearance.

EXTERNAL MATERIALS

Roof - Forticrete Gemini rooftiles in slate grey

Rooflights - standard black finish velux

Eaves/Verge - Irish Oak uPVC

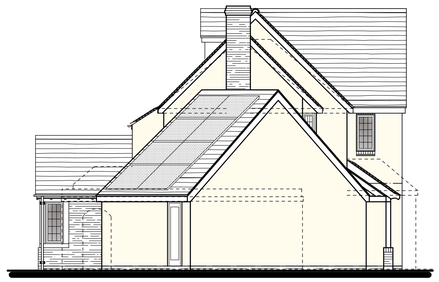

Rainwater Goods - black plastic fittings

Doors/Windows - Irish Oak Upvc

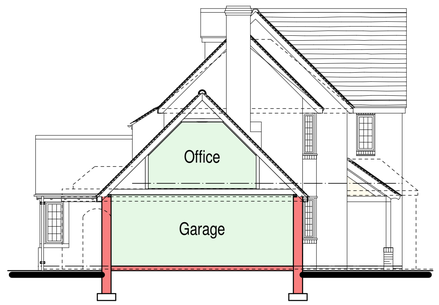

Walls - mixture of Chalk colour painted render and Ibstock 'Alnwick Blend'

North Elevation

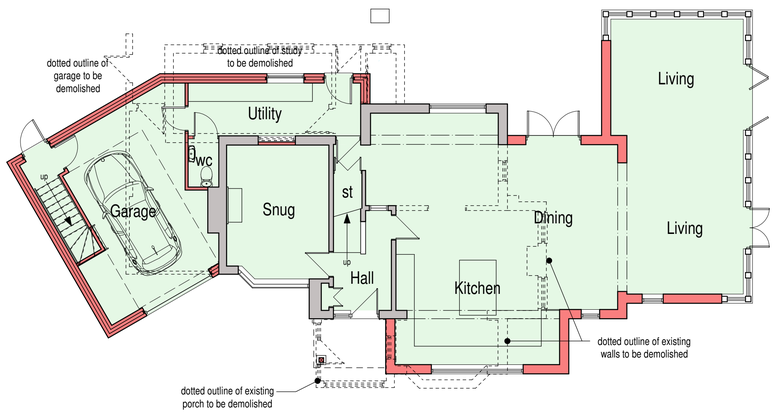

South Elevation

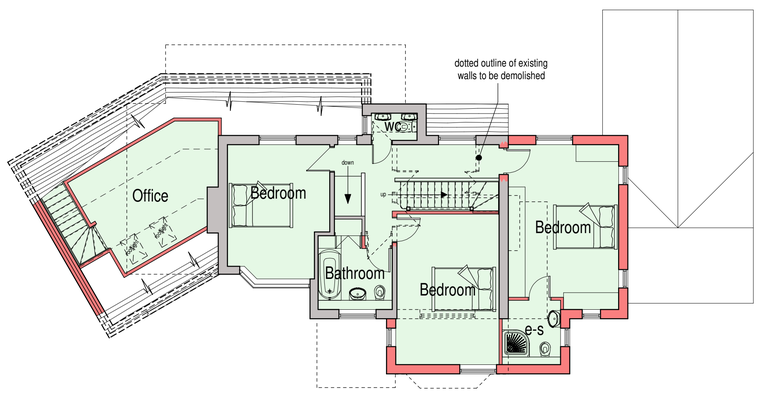

Garage Section

HEAT PUMP
The new property is to be provided with an air source heat pump to provide heat and hot water to the property, which will require an external condenser unit as part of the system. Full details will be available once detailed design of the property is finalised and energy assor has undertaken their SAP calculations.

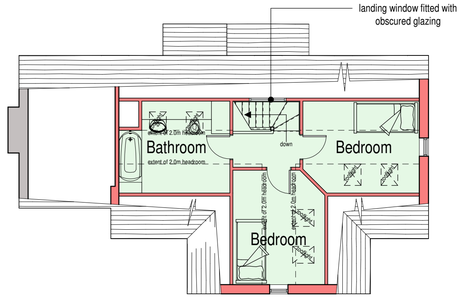

PV ARRAY
The new property is to be provided with a 3.5 kW solar panel system to provide heat and hot water to the property, which will require 10 No. 2.0m x 1.0m PV panels fixed onto the roof. Full details will be available once detailed design of the property is finalised and energy assor has undertaken their SAP calculations.
