Hi Jane,

RE: Condition 4: Construction and Environment Plan

The applicant has submitted the a [construction and environmental plan](#) to discharge condition 4
The management plan is accepted (from an EH point of view), subject to the applicant supplying the following details;

“IV. The responsible person (e.g. site manager / office) who could be contacted in the event of complaint”

It is also noted that the following requirement is in the condition. This does not appear to have been addressed in the document but this was not part of the original EH condition

“VII Full details of soil placement/disposal from the car park and path excavations. If to be placed on site this would represent an additional landscaping opportunity (see requirement for updated biodiversity metric in Condition 11)”

Groundwater Contamination Condition 7 (and 8)

These are noted EA conditions (water) rather than LA (Human Health) therefore this should be directed to the EA for approval

Regards

Dan
