Submission: Objection

Comments: I am objecting to the above planning application regarding the Light Rock Solar Farm. This has been my family home for over 40 years.

The impact of this on my elderly parents and our family, being located 16 metres from their front door and also on the local community will have a undesirable dangerous effect on their health. Lets not forget the toxic make up of all of this, health and safety must prevail for ALL and utilize unused areas, there are plenty of derelict industrial estates which this can be located on without the need to take and ruin the greenland we still have left to farm.

The roads leading up to this are in an undriveable state as it is, they were not built to deal with construction traffic. Put it in an area that can deal with all the affect this is going to have on the community of Leigh
