Submission: Objection

Comments: I wish to object to this planning application, most strongly. The building of these proposed properties would lead to a major increase in traffic numbers trying to gain access, which the current access does not allow for. I am currently employed by a large home delivery company, and trying to deliver into this proposed area would almost be impossible, there is no turning area for large vehicles in the area, which could result in damage to hedgerows, kerbs and grass verges and overhanging trees.

The proposed site is clearly marked as green belt land, and currently there are many wildlife organisations, raising major concerns about the losses of wildlife habitat and declining numbers of wildlife. This area contains many species of wildlife, birds and insects which would all be lost. There are many more suitable building opportunities within the local area which could be utilised to enhance the area.
