Comments: The environmental report is extremely concerning in that this will impact on local residents quality of life. I cannot object strongly enough. In summary this development does not appear appropriate for this location. It will emit a noise which is not characteristic for the area. It will position loud industrial plant in agricultural fields and certainly according to the noise assessment change the noise environment for a significant number of local residents. The levels of noise will be low but would be noticeable especially on still evenings and nights.
