Submission: Objection

Comments: The proposed application is not subordinate to the existing building. The proposed application dominates the existing building. The proposed application is not in harmony with the local environment and can be seen from the neighbours garden. The scale proportion does not have regard for the surroundings. Three storey buildings are out of character in Hollington. I have concerns that further excavation in the proposed area could cause our access track to become unstable, as demonstrated 100m along the track towards the village.
