Comments: Living on froghall road at present is a nightmare and an accident waiting to happen. Both the traffic and volume of traffic, and speeding is a very really problem and someone is going end up being killed. There at present are cars parked on verges, pavements, corners, kerbs and the road. At the top of the road at present is horrendous and queues most days as well as near accidents. It already is a huge problem and grid locked several times a day. To think upwards of another 400 cars could be going this way is ludicrous and a massive strain on an infrastructure that wasn't built to cope with such traffic. On top of that the town is not equipped, the schools are at bursting point, only 1 nhs dentist and the doctors you have to wait weeks for. All this is a massive strain on resources which is already near breaking point. In the last 12 months alone 2 huge estates have been built already in this area putting on strains already, before anymore houses are built we need new schools, doctors and dentists
