Comments: I feel that this facility would be a great addition to the local community and provide many benefits to dog owners who simply can't let their dogs off for a run. I have a dog who we can't let off lead as he would be off. Also it is very difficult to let dogs off in the countryside as you can't be sure if there are livestock around.

Having had a quick look at the field it looks like the fences are good enough so the Horses in the next field should be safe. I didn't see any other animals about.

It looks like you can drive into the area so no issues trying to get dogs out of the car on the roads which would be my other concern. If the planning is approved then I will certainly be looking to book to give my dog a good runaround in safety..
