Subject: Objection to proposed developments

Categories:

Hi

We would like to strongly object to planning applications:

SMD/2022/0574
SMD/2022/0548

Battery Storage

These are extremely dangerous. Can explode at any time.

I understand there is a public footpath which runs through Armshead Farm so how will that work with members of the public using the footpath. So much for health and safety.

These are going to pop up all the time now as previous applications have been passed. Absolutely ridiculous!!! Once you pass one

We have been approached several times, been offered ridiculous amounts of money to put them on our land and we've said NO. Safe countryside is more important to us than £ signs.

I hope you take this into account.

Many thanks

Eddie and Jane Heath
