I am just writing to inform you that my husband and I totally object to the above planning application. Currently Cheadle town centre is swamped with traffic trying to get out of Froghall Road between 8.20 am and 8.45 am to get children to school. The same applies at approx 4.30pm when JCB finish work the town is not capable of taking any more traffic let alone where and when would these people get to see a GP we don't and also I guess there are limited spaces within our current schools. Money was also supposed to be spent on Churchill Road recreation ground this was given from a small development off Ness Grove this has never happened. Really think the infrastructure needs to be in place before any further building is given the go ahead.

Yours sincerely

S.L Shone
