Dear Sir/Madam,

RE: LONDON MILL - ASHBOURNE ROAD, LEEK.

The recent announcement that the above mill is potentially going to be converted into apartments/flats maybe a positive aspect to regenerate an old and derelict mill. However, my concern includes the fact that I am not sure who will be meant to be housed here and also where these people will park cars. From the plans, I cannot see any car parking. The surrounding streets have seen great difficulty for residents to park and it does seem that this issue will only ~~ex~~ exacerbate the situation. I have lived in the street for 55 years and I have never seen congestion and bumper to bumper cars than in recent years. Many times I have to park several streets away from where I live and feel this is not right. If the mill next to London mill could be used or converted to a car park for local residents/businesses this would assist. My gut feeling is that this will not occur. Please review your policies to assist local residents.

making a decision please.

Yours sincerely
