Hi

I am emailing to oppose the above planning application.

I have never once opposed any planning due to understanding people need somewhere to live.
However I strongly oppose the need for this development on the below grounds.

- Cheadle has and is still in the process of building a large amount of new properties many of which are still up for sale which more than meets the needs for new housing in the area.
- The town is a nightmare already for traffic and is not built for the amount of traffic. Getting through the town is hard work at the best of times and this increases with the traffic for Alton Towers and tourism for the local campsites and holiday parks.
- Getting into the doctors in the town is difficult enough without adding another potential 228 homes which will come with multiple occupants. This on top of the homes that are already in process.
- The area of the planning is rural and it will be taking away necessary green areas for the local wildlife and also make the area less desirable due to the taking up of green areas.
- More cars in the area means more pollution which again makes the area less attractive to live.
- Most of all you can not just continue to keep developing houses for company profit when they are not needed.

Thanks
