SMC/2023/00030 Complaint Letter and subsequent retrospective application **SMD/2023/0178** - Planning Application for the erection of a boundary fence on the top corner of Basnetts Wood, 38, Basnetts Wood, Endon, Staffordshire, ST9 9DQ

A complaint was raised in so much a fence had been constructed around the dwelling boundary between brick piers without planning consent. A subsequent retrospective application has been made to SMDC to retain the said fence. I didn't have a real objection first time round but agree that a message is sent out demonstrating that people must apply for consents where they are obligated to do so. Now that the applicant is applying for formal consent I feel the fence, not being obtrusive, **should be considered for approval**. To date the applicant has local letters of support and no objections.

Dennis Boulton, Clerk, Endon with Stanley Parish Council
