Submission: Objection
Comments: 1. Reduced sunlight into the front of my property due to Mr Poole's extension making it darker in both the living room and front bedroom.

2. Mr Poole's extension will cause a visual eyesore on Mulberry Way and would not adhere to the building line of all the other properties when they were built and therefore does not maintain the visual character of the street.

3.The proposed design of the extension to Mr Poole's property does not match any other property on Mulberry Way and will look out of character to all the other properties.

4.The planning application does not state the material (Type of brick) to be used and would look unappealing visually if a different brick was used as to the brick Mr Poole's property was built

with.

5. Mr Poole knows that he has an established colony of roosting and breeding Bats within his property and and that it is illegal to destroy or harm Bats or to damage, destroy or obstruct a roost whilst renovating or converting a property
