Submission: Objection

Comments: This application has been extended with no notice given to residents it had been. ALL objections remain valid and I emphasise with the increased traffic and noise and activity as result of the ex teed use of the Ada Andes protein site further behind this location, that building here should be rejected.

There has also been confirmed evidence, I am told, of great crated meets in this site. I hope Staffordshire Moorlands recognises the environmental significance this site plays both for the people and the wildlife in the area. I hope the planning board makes the right decision and rejects this application, now and any future ones too.
