Comments: It is y clear how the changes to the plan reduce the oak of visibility on exiting the site, given line of site and other properties hedges, end of properties boundaries onto a 50mph road with heavy lorries, farm vehicles and Those who go faster than the speed limit. Whilst there have been no fatalities, there have been collisions and I wonder if the council need someone to die before they consider them impacts. The increase in lorries due to the factory having been approved to operate 24/7 makes the area at higher risk.
