Submission: Objection

Comments: To whom it may concern , looking at the revised plans , there is now the revisions of planting additional trees to the field and classing this as an orchard what limit has been set on the height of these ? These will no doubt grow to an unsustainable height causing further natural daylight blockage to our property and shadows, in addition to the objection I have put already regarding the development being behind the existing building line , and blocking natural daylight and sunlight from our property

I'm unable to attend the committee meeting due to external work commitments but wish that my objections are noted

Mr I Birch
