Submission: Neither

Comments: 1) Has ample parking been considered, including visitor parking? There is a great deal of on road parking in Leek currently causing congestion, and more development has the potential to add to this problem.

2) Has any funding for local schools been considered? Leek schools are completely running out of pupil space and more development means there may well be more school places needed in the area which currently are not available. Class sizes are swelling and schools don't have enough classrooms to accommodate all the extra developments. Schools need serious investment before any further housing is created.
