Comments: It is unclear from details available whether provision of car parking is included within plans for this development (for example by utilising the ground floor of London Mill). I very strongly feel that car parking should be provided for every flat in the development due to the severe shortage of car parking for existing residents already. We have made space for one car in our (small) garden, which we use. We often struggle to find somewhere to park the other car when arriving home, sometimes having to resort to using the pay & display opposite Lidl (no cost overnight but not convenient). I'm unsure even that would be possible were spaces needed in the area for 34 additional cars.
