Hello Ben,

Re. Condition 16

The lighting units proposed are mainly for street lighting. I would advise this information is submitted to SCC.

But according to the submitted plan there are proposed 'private LED bollards' designed to emit 1700 lumens with max '2 lux' at residential properties. These predicted levels are compliant with the Institute of Lighting Engineers criteria for Suburban areas of which this area would appear to be, once developed.

We would recommend discharge of condition for these bollards but SCC should be consulted on the street lighting.

Thank You,

Denis

Mr Denis Colgan
