**Categories:**

Good Afternoon

**RE: SMD/2022/0014**

*OPC understand that works designed to fulfill the basic objective of this application were undertaken in June 2021 (all being in a rudimentary and incomplete way) **prior** to this application being made.*

*There is no mention of SMD/2022/0014 being a retrospective application.*

*Therefore, it is our view that the application should be considered by SMDC to be void, and a retrospective application made by the applicant to take its place.*

*Alternatively, we believe that SMDC should require the applicant to reverse the works undertaken, and once this is complete, request that the applicant resubmit the application, at which point consultees may be given the opportunity to comment further.*

Kind regards

Carmen Giuliano-Worthington
