Submission: Objection

Comments: This proposal is quite frankly ludicrous for the infrastructure of the local area and the impact on local sustainability and environment. As a local resident I have witnessed 4 serious road traffic accidents in the vicinity in the past 6 months - two of them serious. Increasing the volume of traffic further on narrow lanes which are not built for the current traffic load let alone additional numbers will have a very serious detrimental impact on both visitor and local resident safety. Noise and pollution is already high through Oakamoor and surrounding villages and this will only increase with this development causing serious impact on local residents health and well-being. This in addition to the impact on local wildlife, soil and water table infrastructure and local services (including emergency services) makes this development completely untenable.

Kind regards,

Kathryn Watson
