Submission: Objection

Comments: I am raising concerns that the proposed development is not lawful due to the positioning of the building and it wil obscure our views. Should the proposed development be built on the opposite side of the garden, there would be no issue.

Our other concerns are that the building could only get bigger over time once it is erected.

Please could we arrange a meeting so as you can see the issues that we face as these beautiful countryside views have been here since the house was built. It would be a huge shame to lose these.
