Comments: I saw the comments about the parking spaces that there could be an application to rent or buy 7 parking spaces from Sainsburys on their car park, in reality the distance and location of those would not be useful, the majority of customers to the Pizza house would not want to park that far away and walk up to the high street to collect food, most customers would seek more local areas to park, most likely opposite or aside to the eatery. The Highway issues will come when there are several delivery bikes and cars constantly collecting for deliveries and returning for more therebis likely to be several drivers in operation at one time for this type of pizza company that are very well know. This increase in delivery driver traffic to and fro, and the customers to the shop collecting their food. As it stands now, there is not enough safe parking as the taxi rank opposite is used as an alternative, having a takeaway of this size and popularity would have a huge impact on local traffic which in itself is not safe in an area already full of residents and customers of local shops and bars. Increasing the traffic on this stretch of the road where the plan is, will certainly increase the risk of accidents both with vehicle collisions and pedestrian collisions, especially since at weekends its very very busy with drunken revellers, should this happen, its a problem created from one that doesn't currently exist entirely due to the units being unused at the moment.
