Submission: Objection

Comments: In principle, I support the conversion of the old mill into flats. However as a resident who lives nearby on a road already so full of cars that I often can't find a space in my own street, I must object to the current application if no provision for parking on site is made. With the location being so close to the town centre, it is insanity to believe that adding tens of more cars to the already packed parking situation is going to do anything positive.

Any argument that residents will use local transport is naive with the current state of public transport, therefore I must submit an objection to this application.
