Submission: Objection

Comments: I object to the planning as it alters the purpose of the farm site. Once the conversion is complete it provides president to alter several other buildings creating a small dwelling plot. The access to this site has been established as a hazard which would increase as more dwellings are future purposed. The plan erodes at the farming use of the whole site removing a farm building which would serve as utility for a working farm. Consideration should be given to the future of the whole site before being broken up. Cheadle area is losing a lot of healthy farm land by quarrying and development with plans extending into the future. Diseased tree areas and poor quality soil need surveying before green lands are repurposed.
